## SENATE BILL No. 177

---

DIGEST OF SB 177 (Updated January 27, 2014 12:59 pm - DI 109)

**Citations Affected:** IC 14-8; IC 14-23.

**Synopsis:** Sale of seedlings and wildflower seeds. Relocates a provision that allows the sale and distribution of nursery stock or wildflower seeds to certain individuals who reside in a state other than Indiana. Provides that the department of natural resources (department) may sell and distribute to an individual or a business in a state other than Indiana nursery stock or wildflower seeds that the department determines are excess inventory. Limits the period that the department can sell excess nursery and wildflower stock to a person or business in another state. Prohibits the department from selling or distributing nursery stock or wildflower seeds to a business that sells nursery stock or wildflower seeds in Indiana. (Current law prohibits the department from selling or distributing nursery stock or wildflower seeds to any business that sells nursery stock or wildflower seeds.) Allows the department to sell excess nursery and wildflower stock to an Indiana wholesale business if certain conditions are met. Places a limit on an increase to the department's annual production of nursery stock. Requires the department to publish certain information concerning nurseries that sell seedlings on the division of forestry's Internet web site. Allows the nurseryman to determine whether the nursery's information is published on the division's Internet web site.

**Effective:** July 1, 2014.
